

Patent, Trademark & Copyright Law

Protecting Innovation for More than 160 Years

A leader in the practice of intellectual property law for more than 160 years, The Webb Law Firm has helped innovators ranging from individual inventors to multinational companies to advance their technologies, safeguard their discoveries and achieve historic milestones.

The Webb Law Firm attorneys concentrate their practice exclusively in domestic and international intellectual property law, which includes patents, trademarks, copyrights, unfair competition, trade secrets, licensing and related litigation.

The firm's diverse client base includes multinational Fortune 100 corporations as well as start-up ventures, covering many established industries including steel and glass, as well as medical devices, advanced manufacturing, life sciences and information technology. Our highly knowledgeable and experienced attorneys hold dual degrees in law and the sciences, combining their technical and legal expertise with an in-depth personal understanding of business.

Technical disciplines include biology and chemistry, ceramic engineering, chemical engineering, computer science, electrical engineering, materials science, mechanical engineering, metallurgical engineering, petroleum engineering and physics. Attorneys handle cases in areas related to these fields as well as civil engineering, polymer science, biochemistry, molecular biology, pharmacy and immunology.

Located in downtown Pittsburgh, The Webb Law Firm employs over 90 professionals including 30 attorneys and four patent agents. The firm has a long and well-established history. As one of the oldest intellectual property boutiques in Pennsylvania, The Webb Law Firm traces its roots back to 1845 when William Bakewell became the first attorney to practice patent law west of the Allegheny Mountains.
